POLO VICTIMS NEED HELP NOW

Many questions concerning the blood program are discussed over the back yard fence. Therefore, there are many answers, whether correct or in error, remaining to be settled. In an effort to inform the people of Bulloch County I will attempt to answer some of these questions.

WHAT IS THE BLOOD PROGRAM?

Answer—It is an effort of the Red Cross to collect blood with which to build up a blood bank sufficient to meet the demands of all hospitals participating in the program. Also to collect blood from the people who enter a hospital which is not in the program; so a transfer can be made thus saving an emergency blood bank where a commercial blood bank is operated. The blood is collected and deposited in the Savannah Blood Bank and is used as needed. It is drawn from the person, eliminating the burden of searching for donors with the same type of blood as that of the person involved in the emergency.

A person from Bulloch County may enter a hospital that is not participating in this program and may be charged as much as \$50 per pint for blood but if said hospital is so informed the blood can be replaced from the blood bank, thus eliminating a large bill for blood.

John Cromley, chairman of the ASC county committee, disbelieves the charge. He stated that the ASC program could help to the West side Farm Bureau Tuesday night.
